

TABLE OF CONTENTS

ACKNOWLEDGEMENTS	iv
DISCLAIMER	v
EXECUTIVE SUMMARY	vi
1.0 INTRODUCTION	1
1.1 Proposed Action.....	3
1.2 Description of the Tijeras Canyon Study Area	7
1.3 Distribution and Abundance of Key Wildlife Resources in Tijeras Canyon.....	11
1.4 Existing Barriers to Wildlife and Permeability Points.....	13
2.0 DATA COLLECTION	23
2.1 Primary Data Collection.....	23
2.2 Recorded Data.....	25
2.3 Field Acquired Data.....	25
2.4 Anecdotal Data.....	32
2.5 Summary of Data Collected	33
2.6 Findings of the Data Analysis	34
2.7 Summary.....	46
3.0 PHASE A RECOMMENDATIONS	49
3.1 General Overview.....	49
3.2 Improvement of Existing Permeability Points Along I-40.....	50
3.3 Completion and Repair of Existing Fencing.....	62
3.4 Development of Water Sources North of I-40 and West of Dead Man’s Curve	62
3.5 Installation of Wildlife Fencing.....	63
3.6 Escape Ramps.....	76
3.7 Cleanout Points.....	77
3.8 Crossover Points on the Roadway.....	77
3.9 Wildlife Signing.....	79
3.10 Pre-construction and Long-term Monitoring	83
3.11 Suitability of Artificial Lighting at Hot Spots for Wildlife/Vehicle Collisions.....	86
3.12 Development of a Maintenance Program	86
3.13 Summary of Phase A.....	87
4.0 PHASE B RECOMMENDATIONS	88
4.1 General Overview	88
4.2 Create A Wildlife Crossing Along NM 333 at Dead Man’s Curve.....	88
4.3 Installation of Wildlife Fencing Along NM 333 at the I-40 Exit 170 Interchange.....	95
4.4 Creation of an Overland Crossing Along NM 333 at the Exit 170 Interchange.....	95
4.5 Potential Additional Wildlife Fencing Along NM 333.....	98
5.0 PHASE C RECOMMENDATIONS	99
5.1 General Overview.....	99
5.2 Completion of a Baseline Study of the Phase C Corridor.....	101
5.3 Evaluation of the Phase A Measures and Additional Measures Considered.....	101
5.4 Completion of the Development of Wildlife Passages and Motorist Protection at the Western End of the Phase C Corridor.....	106
6.0 LITERATURE CITED	108

APPENDICES

- A Anecdotal Data Questionnaire
 - B Raw Crash Data, Skeletal Material Data, NMDGF Data and Anecdotal Data
-

FIGURES

1	Tijeras Canyon Study Area Location Map	2
2	Location of Major Side Canyons, Tijeras Creek, and Vegetation Types in the Study Area.....	4
3a	Close up of Project Area Photographic	5
3b	Close up of Project Area Photographic	6
4	Distribution of Major Water Sources in the Tijeras Canyon Study Area.....	14
5	Photographs of Waterholes 1 and 2 in the Tijeras Canyon Study Area	15
6	Photographs of Waterholes 3 and Tijeras Creek Flowing Below Dead Man’s Curve..	16
7	Major Permeability Points in the I-40 Corridor.....	22
8	Location of New Mexico Department of Transportation Crash Data.....	24
9a	Wildlife Trails Along NM 333 and I-40 in the Western Part	27
9b	Wildlife Trails Along NM 333 and I-40 in the Central Portion.....	28
9c	Wildlife Trails Along NM 333 and I-40 in the Eastern Portion.....	29
9d	Topographic View of the Eastern Portion of the Study Area Showing Primary Wildlife Trails	30
10a	Locations of all Reports of Wildlife/Vehicle Collisions or Observations of Wildlife...35	
10b	Locations of all Reports of Wildlife/Vehicle Collisions or Observations in the Western Portion	36
10c	Locations of all Reports of Wildlife/Vehicle Collisions or Observations in the Central Portion.....	37
10d	Locations of all Reports of Wildlife/Vehicle Collisions or Observations in the Eastern Portion	38
11	Reported Incidents of Wildlife/Vehicle Collisions by Hours of the Day	42
12	Reported Incidents of Wildlife/Vehicle Collisions by Months of the Year	43
13	Incidents of Wildlife/Vehicle Collisions for Mule Deer, Black Bear and Mountain Lion by Months of the Year.....	44
14	Cumulative Distribution of Wildlife/Vehicle Collisions by Season.....	45
15	Proposed Changes to Bridge 1 to Facilitate Wildlife Movement Through This Permeability Point.....	52
16	Photographs of Culvert 6, Just West of Dead Man’s Curve	53
17	Plan View of the Proposed Wildlife Entrance Ramp at the North End of Culvert 6 West of Dead Man’s Curve.....	55
18	Cross Section of Culvert 6.....	56
19	Photographs of the Area Under Bridge 2	57
20	Locations of Gaps in Existing Six Foot Fencing in the Western Half	59
21a	Photographs of Fence Gaps and Failures in the Western Portion.....	60
21b	Low Block Wall and Undercut Fence Segments in the Western Half	61
22	General Location of Proposed Water Improvement Sites for Wildlife in the Eastern Half.....	64
23	Overview of the Study Area Showing Proposed Wildlife Fence and Escape Ramps...65	
23a	Photographs of One Style of Wildlife Fencing	67
23b	Photographs of Electric Fencing That Could be Used in the Study Area	68
24	Enlarged View of Wildlife Fencing on Eastern End of Project Area	70
25	Enlarged View of Wildlife Fencing Near Dead Man’s Curve.....	71
26	Enlarged View of Wildlife Fencing Near Dead Man’s Curve.....	72
27	Enlarged View of Wildlife Fencing Near Exit 170.....	74
27a	Plan and Photograph of Standard Wildlife Escape Ramps Design.....	78
28a	Approximate Position of Cleanout Gates for Low Fence and High Fence Replacements.....	81
28b	Approximate Location of Cleanout Gates for the Low Fence and High Fence Replacements.....	82
29	Overview of Principal Wildlife Sign Locations in the Study Area.....	84
30	Distribution of Wildlife Collisions and Observations Along NM 333 from Exit 170 to Dead Man’s Curve	89
31	Three Dimensional View of the Southern Side of The Sandia Mountains Above Dead Man’s Curve Showing Wildlife Movement.....	91
32	Location of Proposed Fencing and Wildlife Underpass at Dead Man’s Curve.....	92

33	Photographs of Proposed Wildlife Underpass Along NM 333 at Dead Man’s Curve	93
34	Anticipated North-to-South Movement of Wildlife at Dead Man’s Curve With a Wildlife Underpass.....	94
35	Location of Proposed Wildlife Fencing, Signs, Motion Sensors and Escape Ramps at Exit 170	96
36	Close-up of Proposed Overland Wildlife Crossing At Exit 170.....	97
37	Full Extent of the Proposed Phase C Corridor.....	100
38	Location of Potential Wildlife Overpasses at Dead Man’s Curve and Near Seven Springs.....	103
39	Possible Location of a Wildlife Overpass Across I-40 and NM 333 at Dead Man’s Curve.....	104
40	Possible Location of a Wildlife Overpass Across I-40 and NM 333 Near Seven Springs	105
41	Location of Proposed Phase C Fencing From Tramway to Exit 170.....	107
