****TRAFFIC ALERT****

NEW RAMP CONFIGURATIONS FOR I-40/COORS DRIVERS

ALBUQUERQUE – The GRIP I-40/Coors Project will shift two ramps tonight onto a new configuration. As of Wednesday morning, the westbound I-40 off-ramp to southbound Coors Boulevard will shift onto its permanent alignment to the north of the old southbound Coors Bridge. The eastbound I-40 off-ramp to southbound Coors Boulevard will shift to the north as well, requiring traffic to stop prior to merging onto southbound Coors.

For construction updates, visit our Web site at www.nmgrip.com and select the "I-40 / Coors Interchange" from the list of current projects or call our 24-hour project information line at 877-I40-GRIP (4747).

For more information contact Joan Griffin at 764-4444 or 261-4444 (cell).
